CO-ORDINATING COMMITTEE

Export of Electronic Equipment to Poland

Memorandum by the United Kingdom Delegation

The United Kingdom authorities have been asked to approve the export to Poland of a Vacuum Tube Voltmeter, Type 1041B, which is covered by the definition of I.L.1529(a). Its value is \$308 and it is stated to be required by the Warsaw Politechnic for the technical training of students. The usual assurances against re-export will be obtained.

2. A previous similar export was agreed by the Committee in June 1959 and full technical details of the equipment will be found in COCOM Document No. 3569, paragraph 3.

3. Her Majesty's Government consider that the present requirement is reasonable and wish to authorise the export under the special Polish exceptions procedure. They would be grateful for the view of Member Governments by July 27.

United Kingdom Delegation,

Paris.

July 16, 1959.
